Directory Submissions

Global SEO offers a variety of directory submission services to help promote your website. We have a list of several hundred directories that we can submit to. So depending on your needs and budget we can submit to just a few dozen or a few hundred. Each entry is hand submitted to provide variety of site descriptions, keywords and to increase success of site acceptance.

Website Optimization Services

By reviewing your site, Global SEO will find the trouble spots and recommend how to optimize your site so that it can be properly indexed by the search engines. This can involve as little work as modify the text on your page(s), to a full website re-design. We will tell you what we think must be done for best success and then we can balance the actual work done to keep it in your budget. A lot on-page and on-site optimization can be done with very little work. It's the last 20% that requires a lot of work and usually involves inter-page relationships (inner site linking and page linking content relation).

Keyword Research

There is no point in optimizing your site if we have not clearly defined what keywords best describe your service and/or product(s). We will discuss with you your business to better understand what it is you do, review your current website, look at your competitors, and then begin an exhaustive research of which keywords to choose that will give you the most traffic for the least cost. Afterall, if you make more money we make more money through references and your continued business.

Free Consultation

We provide free consultation for the life of your contract with us. What does this mean? It means you may call us or e-mail us at any time to ask us questions on work performed, current work in-progress, future work or any other topic we can help with.
